Your Transition Strategy

Given your active search status, direct path language, and the immediate opportunity to leverage your proof of work, the 'need_now' scenario is recommended to quickly land in your top profile match as an AI Trainer and Enablement Specialist. All three paths are shown — your recommended path is highlighted.

Recommended for you

Need income now

0–6 weeks runway

- Complete your Ironhack AI programme — finish strong, this is your credential
- Improve your best Ironhack project — make it portfolio-ready and client-facing
- Apply for 10 roles per week — treat your job search as a full-time job
- Pitch SMEs and SMBs in your existing network for a short freelance gig, pilot, or proof of concept
- Develop a pilot AI training module and seek feedback from AI practitioners — powered by Ideation — addresses the weakness of limited AI-specific training content creation.

Maximize your Communication and Strategic strengths, manage the weakness of limited AI-specific training experience, capture the opportunity in AI enablement design, and counter the threat of being mispriced in the market.

Build to win

3 to 6 months to invest

- Build a portfolio from your Ironhack projects — document, polish, make them client-facing
- Complete your Ironhack CareerHack programme

- Enroll in a certification course on AI training tools, such as 'AI for Everyone' by Andrew Ng, to close the gap in AI-specific training content creation — powered by Futuristic — addresses the weakness of limited AI-specific training content creation.
- Attend AI-focused networking events like 'AI in Automotive' to connect with potential clients and peers — powered by Positivity — addresses the opportunity in AI compliance and governance consulting.
- Seek collaboration opportunities with AI-focused startups to design AI learning systems — powered by Strategic — addresses the opportunity in AI enablement and learning design.
- Utilize LinkedIn to share insights and engage with AI communities using your elevator pitch — powered by Communication — addresses the threat of being mispriced by establishing authority.

Develop your Strategic strength further, capture the opportunity in AI enablement, and counter the threat of rapid AI tool evolution.

Part-time transition

Building while employed or contracting

- Dedicate time weekly to develop AI training modules while maintaining current responsibilities — powered by Ideation — addresses the weakness of limited AI-specific training content creation.
- Engage in online AI forums or groups to stay updated on AI trends and tools — powered by Futuristic — addresses the threat of being outpaced by AI tool evolution.
- Offer to conduct internal AI workshops at your current organization to build credibility and experience — powered by Communication — addresses the opportunity in AI compliance and governance consulting.
- Schedule regular networking sessions with AI professionals to expand your contacts — powered by Positivity — addresses the opportunity in AI enablement and learning design.

Manage the weakness of limited AI-specific training experience, apply your Communication strength, and mitigate the threat of being mispriced by building a strong network.
